

KI 800 Series

Metric Pedestals

A4 and Slim pedestals from KI offer all the design, construction and safety features expected from the KI 800 Series range. Pressed durable steel frame for strength and rigidity in one seamless, pressed steel piece ensures durability. Multi-bearing drawer runners with secure close action are standard as are finger pulls to match KI 800 Series laterals. Filing drawers are high sided and can be refigured retrospectively.

British designed and manufactured, certified to BS 4875 pt 7&8 Level 4 and with a ten year guarantee. Units feature an anti-tilt system with castors or adjustable glides and are available in any colour. Drawer fronts may be colour co-ordinated, wood drawer and top finishes in birch, maple, oak glass or COM can be specified with the option of contrasting colour drawer front and textured paint finishes.

KI lock programmes always include a range of important security features as standard; numbered locks, replacement key service, master key, flip/fixed key options, tamper proof construction and locked open drawer protection system locks with 1,000 key differs.

The innovative side access pedestal is also available as part of the KI 800 Series pedestal range.
