

KI Tower™

The KI Tower range is an elegant end of desk personal storage unit. The product can be refigured to left or right handed use on site in a variety of heights.

Use the KI Tower to extend your worksurface and lock away equipment, valuables and confidential documents efficiently when away from your workstation.

The Tower provides more local storage than a conventional pedestal. Use the optional tool rail, whiteboards, pinboards and other components to tailor the storage requirements as you wish.

The KI Tower forms part of a comprehensive pedestal, lateral and personal storage range.
