

GO
orangebox

Go is direct in realisation and elementary in design - ultimately, it shares the same ergonomic and engineering research and development consistent with all Orangebox task chairs and is designed to deliver a peerless level of comfort and performance within its price sector.

GO

The affordability of Go is achieved with a no frills attitude.

Robust, durable chair elements

are balanced with a synchronous mechanism to create an elegant chair that meets the needs of today's demanding workplace.

modern swivel chair

with synchronous mechanism

Expedient functions and a simple user interface.

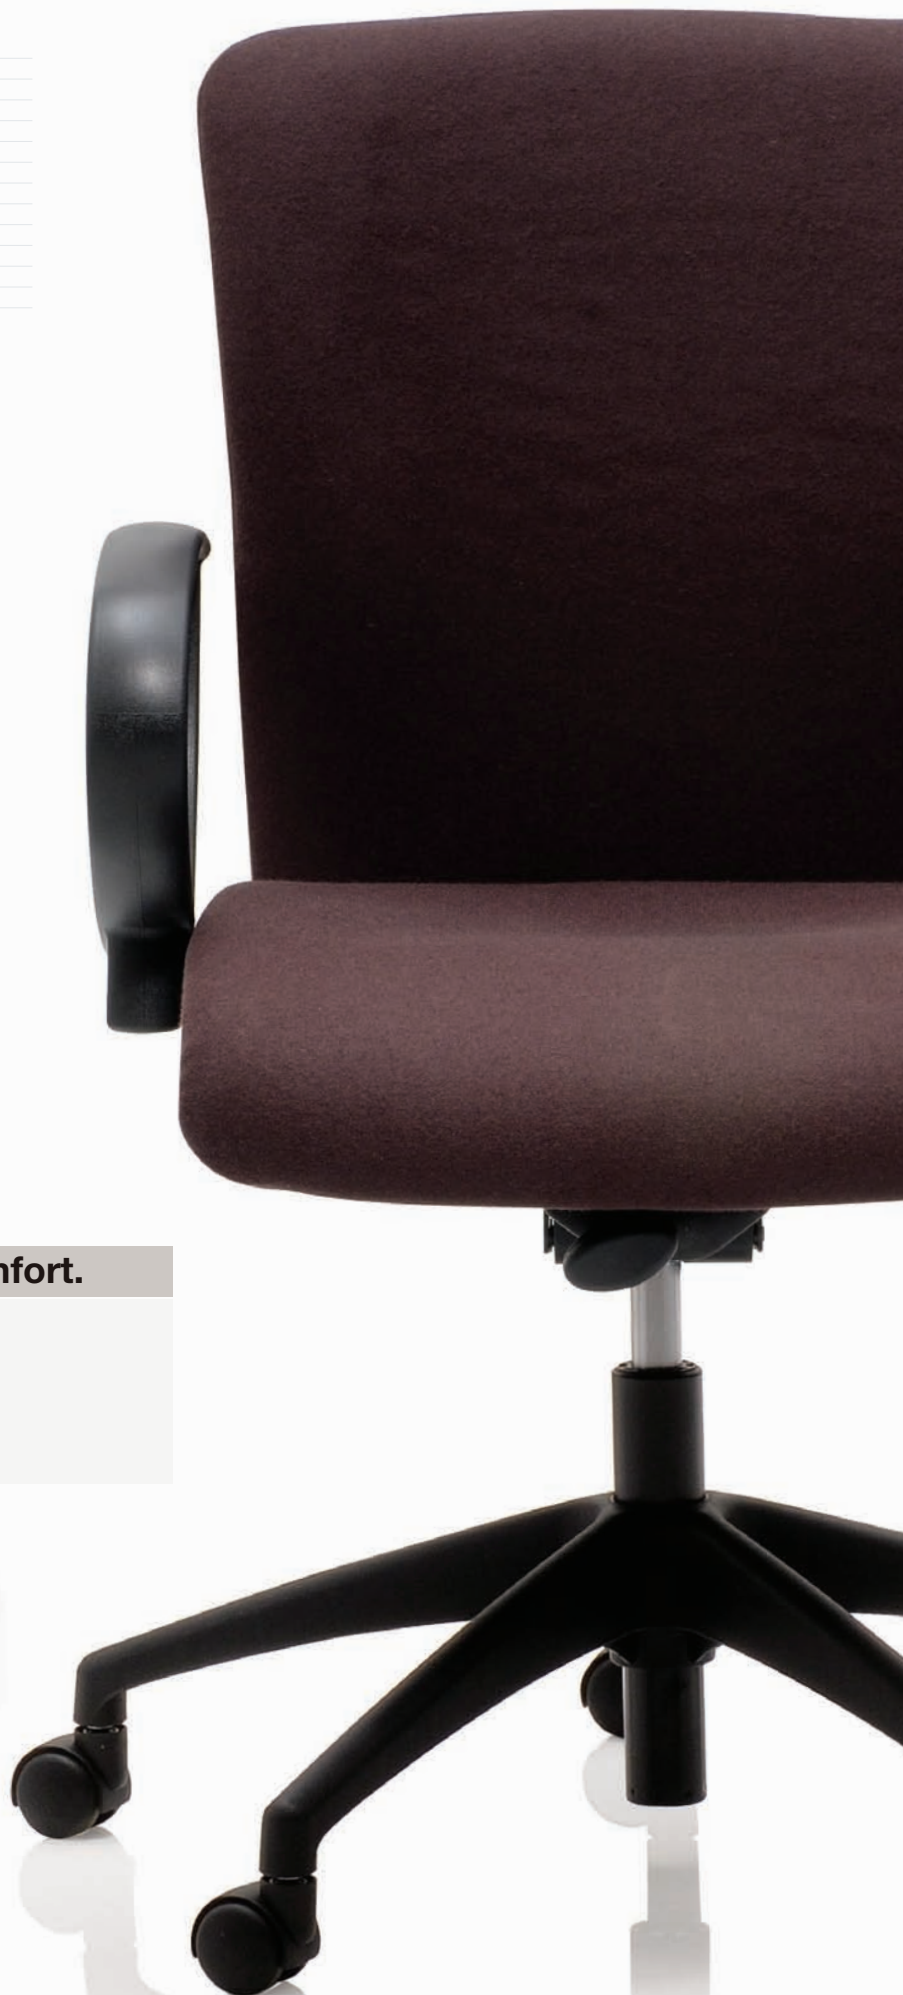

Go's simplistic attitude

is central to its success in a diverse
range of work environments.

GO

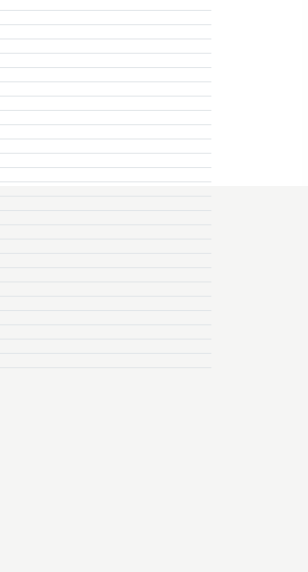

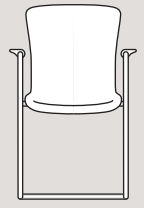

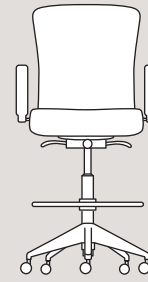

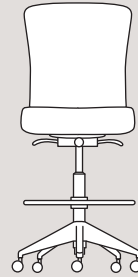

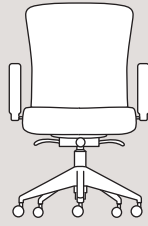

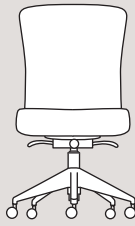

Go delivers a peerless level of comfort.

A synchronous mechanism is combined with an intuitive and intelligent seat, back and arm adjustment interface that allows GO to adapt to a diversity of work demands.

>> Go - continuous comfort

The GO universal visitor chair offers a comfortable, durable design. Built off a robust tubular steel frame, which is combined with a contoured upholstered ply seat and back shell with soft plastic arm pads for added comfort.
